Summary

Aspiring Full Stack Developer skilled in React.js, JavaScript, and backend technologies like Node.js and Django. Experienced in building responsive web applications with REST API integration and clean UI design through academic and personal projects. Seeking an opportunity to apply my skills, learn from experienced teams, and contribute to real-world development.

Education

KPR Institute of Engineering and Technology, Coimbatore 2023–2027
B.E. Computer Science and Engineering (AI and ML) CGPA: 8.7725

Literacy Mission Matriculation Higher Secondary School
HSC: 94.16% 2022–2023
SSLC: 94.16% 2020–2021

Skills

Languages: JavaScript (ES6+), Python, Java, SQL
Frontend: React.js, Next.js, Bootstrap 5, Recharts
Backend: Node.js, Django, Flask, REST APIs
Tools: Git, GitHub, VS Code, Figma
Other: Machine Learning fundamentals, CNN, TensorFlow

Internship Experience

Nitroware Technologies Pvt Ltd. – Machine Learning Intern Jan 2025–Feb 2025

- Developed a responsive web interface for medical image classification and integrated CNN model predictions into an interactive application.
- Collaborated on REST API communication and improved workflow efficiency.
- Documented deployment process. [Project]

Projects

Intelligent Room Booking System [Github]
Engineered a conflict-free backend scheduling system using interval overlap detection to prevent double bookings. Implemented smart room allocation based on capacity and priority with JWT authentication and SQL transaction handling.

Weather Checker App (Full Stack) [Frontend] [Backend]
Built a responsive weather dashboard using React.js and Django REST APIs. Implemented reusable components and integrated Open-Meteo API with Recharts visualization.

BlogSpace App [Live]
Developed a blog platform with authentication, protected routes, and CRUD operations.

Brain Tumor Detection (AI Integration) [GitHub]
Built a CNN model for MRI classification and integrated predictions into a web interface.

Publications

Self-Adaptive Vision-Based Smart Parking System
Accepted for presentation at *Engineering Advance Conference*, 29–30 December 2025. (To be published)

Certifications

HackerRank – Frontend Developer (React) (Jan 2026)
NPTEL – Introduction to LLM (Jul-Oct 2025)
Infosys Springboard – AI Primer; Generative AI (Jun 2025)
IIT Bombay Spoken Tutorial – C; Java (May 2025)
HackerRank – Problem Solving (Basic), SQL (Basic) (Mar 2025)
NPTEL – Data Analytics with Python (Jan-Apr 2024)
